Симптомы (общедоступное)

Проблема (общедоступное)

- The tablet doesn't turn on, slows down, other problems
- You need to connect your phone/tablet for tests

Решение (общедоступное)

How to turn on Wi-Fi and connect to the network on your Android devices:
- Open the device settings .
- Tap Network and Internet > Wi-Fi.
- Set the switch to ON.
- Select the CVR_N network where the N number is located from the list.

After connection, "Connected" will appear next to the network name. The network will be saved. When you are back in range, the device will automatically connect to the network.

Connect to a Wi-Fi network on your Apple devices:
- From the home screen, press Settings > Wi-Fi.
- Turn on the Wi-Fi. The device will automatically start searching for available Wi-Fi networks.
- Select the name of the Wi-Fi network CVR_N, where the N number of the location.

Once connected to a network, the Checkmark icon will appear next to its name, and the Wi-Fi Connection icon is set in the upper left corner of the display (upper right corner on iPhone X or later).

Once connected to the network, you will be able to login to the admin panel. To do this:
- Open any browser on your device
- In the address bar enter 10.1.N.3 where the N is your location number.
- Press Enter
