You can manage gaming machines in every possible way via the React App.
To do this, you need to bring up the menu by pressing the button on the upper right.

Next, select the item "Game machines":

Choose the game machine you need:

A list of modes and functions that can be launched via the React App will appear:

Description of functions:
"Support Mode" - closes the video for easy support GM
"(ON) Attaching the controller" - includes binding controllers
"(OFF) Attaching the controller" - closes the controller binding window
"Play video" - launches promo video
"Calibration" - starts the calibration
"Close windows" - closes the windows that are open on top of the promo clip.
"Restart PC" - restarts the gaming machine
"Turn off PC" - turns off the gaming machine
"Printscreen" - makes a screenshot of the screen
"Video recording ON" - enables video recording (Do not forget to turn off the recording after the next function)
"Video recording OFF" - turns off video recording
